

State Employees' Charitable Giving Campaign

HOW IS MY CONTRIBUTION DISTRIBUTED

The **United We Care - State Employee Charitable Giving Campaign** has contracted with United Way of Treasure Valley to administer, collect, and distribute employee contributions through payroll deductions and/or one-time gifts. This single distribution system keeps the costs of conducting a workplace campaign to a minimum, something we all strive for.

Your gift directly to United Way, or to any of the organizations receiving grants from United Way, or to any organization listed in the unaffiliated section, or to any 501(c)(3) organization you write-in on your pledge form will be distributed by your local United Way. Again this year, our Leadership Team has agreed on a 10% administrative fee to provide this service.

To find out if the organization you want to contribute to is tax-exempt search *GuideStar* (www.guidestar.org) or the **IRS** Web site (www.IRS.gov) or consult your tax advisor about tax-exempt contributions.

Thank you for participating in this year's campaign and know that your Leadership Team continues to work to improve the pledging process and the administrative efficiency of the campaign.
